

SURFACE™

Technical Specification Sheet

SurFACE™ FABRIC SWAB PRE-MOISTENED WITH MRD

Item No.	10004589
Description	Fabric Swab (Swab Cloth according to ISO 18593) in Twirl-Tie™ bag, individually packed & dosed with 10 ml of MRD
Intended Use	For environmental surfaces to collect and ship microbial samples
Components	Fabric Swab (Swab Cloth) 50% wood pulp/50% polyester, size: 28x35cm, 4-fold, weight: 75gsm, pre-moistened with 10 ml buffer, 55 oz. (1.62 L) Twirl-Tie™ Bag, 7.5" x 12" (19 x 30 cm)
Buffer	MAXIMUM RECOVERY DILUENT (ISO 6887) 0.1 % Peptone 0.85 % NaCl
Sterilization	Sterilized by irradiation at dosage of 25 KGy
Shelf Life	12 months from date of production
Storage Conditions	4-25 °C; protect from light, heat and moisture
Pack Size	200 in a box
Quality Control	Recovery/inhibitory of microorganisms Sterility
Conformity	Product is conform with ISO 18593:2018 " <i>Microbiology of the food chain - Horizontal methods for surface sampling</i> "

Date of Creation: 05. May 2020
